

A welcome from
Garry Payne, Chief Executive

“Wyre is a diverse and exciting borough located on the west coast of Lancashire, a stone’s throw from Lancaster, Lytham, Preston and Blackpool.

“The Fylde coast has been recognised as one of the best places to live in a recent Sunday Times guide. Within Wyre we have both coast and countryside on our doorstep. Wyre combines historic coastal and market towns with new and growing business, retail and leisure developments. The eastern edge of the borough lies within the Forest of Bowland, an area of outstanding natural beauty and to the west stands the multi-award winning coastal defences linking the seaside towns of Fleetwood and Cleveleys. With vibrant town centres, stunning coastal views and tranquil countryside, Wyre has something for everyone.

“Our central team is based at **the Civic Centre** in the quaint market town of Poulton-le-Fylde, home to lots of independent stores, bars and restaurants.

“We’re lucky to have a train station just across the road from the Civic Centre, which is also easy to get to from the M55 motorway and there’s plenty of free parking right outside the offices.

“Here at Wyre Council we are a friendly bunch and we pride ourselves on having a healthy and happy workplace. Staff wellbeing is at the heart of all we do. We work flexibly, offering 23 days annual leave, increasing to 28 after five years’ service, as well the opportunity to buy additional days off. Staff are allowed to accrue 2 days’ flexi in each four week period (pro-rata to full time staff) and there is the potential for staff to home work to increase flexible working arrangements.

“We also offer training opportunities for our staff to ensure we are always at the top of our game and providing the best standard of services for our residents.

“We offer a relocation package, a local government pension scheme, discounted gym membership, a staff social club and run a wellbeing scheme to provide our employees with access to any support they might need, because **together we really do make a difference.”**
